

355 Station Street, Box Hill VIC 3128

*Principal*  
**Elisabeth Lenders**

Elisabeth Lenders joined the college as Principal in 2011 and she has a genuine passion for nurturing the strengths and talents of each individual to achieve their personal best. She is also the Chair of the Council for Strategic Education.

Kingswood College is rethinking education for a brighter future. The world has changed beyond imagination. We believe it's time to transform education too. We can't keep educating using an outdated 19th-century model as our base. After all, nothing is more important than your child's education. At Kingswood College we're not waiting for the future to arrive. We're shaping our own – for the benefit of all our students. That's why we've developed an inspiring new approach to learning called the Kingswood Future Learning model.

Developed from extensive research, Future Learning promotes an array of cross-curricular skills in a hands-on learning environment.

School days now look and sound different, with no bells and a much more flexible timetable. The traditional school uniform has been replaced with active wear and each day involves physical activity.

Future Learning removes existing barriers to education and expands traditional classroom structures with collaborative, project-based learning using proven strategies. Our teachers mentor students, closely monitoring their progress and growth at a personal level so they can go out into the world with confidence.

We'd love to meet you on a School Tour, so you can discover the Kingswood College difference for yourself.

## LATTICE

Learning And Teaching Through Innovation, Collaboration and Engagement. LATTICE is a leading edge curriculum framework developed by Kingswood College. It is a whole new way of teaching and learning for life in the 21st century.

## INNOVATION

Our students live in a fast-changing, borderless world – so they need a contemporary, futures-focused education. Innovation is more than just improving education, it can help create a learning environment that challenges and inspires.

## COLLABORATION

Collaboration is a powerful tool that shares wisdom, solves problems and helps build a community of caring learners. Collaboration creates an environment that maximises our students' individual and collective potential to achieve.

## ENGAGEMENT

Engagement is about winning hearts and minds – ensuring that students understand the purposes of their learning, and their application to the real world. We empower our students through teaching them about how they learn and they love it!
